

# WORK PACKAGE

E-Guide for  
Teachers with  
guidelines to engage  
students in climate  
change education

# 2

The SMILE Methodology is a comprehensive online resource designed to guide the development and implementation of SMILE activities. Rooted in the principles of Design Thinking, this methodology provides a structured approach to fostering collaboration and innovation in education.

The key components of the SMILE Methodology are:

- National SMILE Committees: Multidisciplinary groups of stakeholders providing feedback and participating in project activities.
- Integration of SELFIE Tools: Supporting schools in assessing and improving their use of technology for greener practices.

## NEWSLETTER 3

The SMILE e-Guide, designed to assist educators, school leaders, and key educational stakeholders aims to provide valuable knowledge and tools to facilitate the effective and engaging integration of these themes within STEAM education

### Result 1 : SMILE Methodology & e-Guide for Educators

Methodology and e-guide for educators with evidence-based practical guidelines for them to implement activities on climate change and STEM education.

The SMILE E-Guide for Educators

By the start of November 2023, we had a productive meeting to review progress on our project, focusing on finalizing the online platform. We also discussed the next steps for implementation, including testing the platform with teachers, and planned the upcoming work package.
